

UE ROCK PACK

for KORG Kronos
designed by Umut Erhan.

Watch the installation guide here:

[https://www.youtube.com/
watch?v=XHSJJ_Ujv_g](https://www.youtube.com/watch?v=XHSJJ_Ujv_g)

Installation Notes:

1. Go to Disk Mode and back up your Kronos using <Save All> function in disk mode.
2. Copy the folder “**UE Rock Pack**” to your Kronos
3. Load required programs and combis using the **PCG** files:

- For 1st gen Kronos or Kronos X select “**UE Rock Pack v1.0 Kx(old).PCG**”

Note: If Kronos German Grand is located in I-A000, use this one.

- For New Kronos select “**UE Rock Pack v1.0 K2(new).PCG**”

Note: If Kronos German Grand is located in I-C000, use this one.

- Open the PCG file. Select and load programs, combinations and user drum patterns individually.
- Select Set Lists and open it. Select setlist 000 and load it to an empty slot.

**If any your program banks listed above is NOT empty, you can manually load the banks to empty slots in your system. In disk mode, you can open the PCG file to see the contents, there you can select and load individual banks and patches to any location you want. I suggest not changing program references. However if you decide to relocate these banks, follow these steps:*

Example: Let's say you have loaded program banks U-FF to U-CC and U-GG to U-DD; go to Global Mode and select 'Change all bank references' from the drop-down menu at the top-right corner. Mark Combinations. Change references U-FF->U-CC and U-GG->U-DD and press OK. Remember this change will apply to all combis. If you have your own combis with timbres from U-FF and U-GG programs they will be changed too!

***Important Note:** Loading the PCG file directly will overwrite following banks:

- Program banks U-FF and U-GG
- Combi bank I-G
- All Setlists
- User Drum Patterns 0-1

**If your Combi Bank I-G is NOT empty, again you can load it to a different location. Sounds will work but you will lose combi references for each setlist slot. (I have created a setlist with all combis and there are performance notes for each combi.)*

4. Load the samples. You have two options:

- a. You can add KSC files to **KSC Auto-Load** page.
 - I. Go to *Global Mode > KSC Auto-Load* tab.
 - II. Click on *Add KSC*.
 - III. Find **“UE_Rock_Pack_v1_13_UserBank.KSC”** and add it.
 - IV. Find **“UE CP70 v1_1_UserBank.KSC”** and add it.
 - V. Select *Do Auto-Load Now* or restart your Kronos.

Note: *Kronos loads required samples automatically but it slows down the boot time of Kronos.*

- b. You can use **Load Required Samples** (check video)

Note: *It finds the samples automatically from the sample folder in your internal drive. You have to load them each time you restart Kronos.*

5. Go to **Global Mode > Controllers/Scales** tab

- You need an Expression Pedal (I use Roland EV-7 or EV-5) for some of the timbral changes. Assign your expression foot pedal to **Foot Pedal cc04**.
- If you want to use Chord Pads on a midi keyboard; Assign Chord Pads to lowest white keys: (You can skip this step if you are using Korg Nanopad2)

C-1, D-1, E-1, F-1, G-1, A-1, B-1, C0

Note: *On your midi keyboard go to lowest octave using Octave Down button and find C-1. And midi channel of your midi keyboard should be set to CH1.*

- Save settings by <Write Global Setting> function.

Extra Notes:

- Follow the demo videos for the necessary instructions:

[https://youtube.com/playlist?
list=PLpMrdVEJ8hCb02AknwGjRwwP9nGhJX9J-](https://youtube.com/playlist?list=PLpMrdVEJ8hCb02AknwGjRwwP9nGhJX9J-)

I have prepared a supplementary package that includes midi files for all the videos in UE Rock Pack. You can find it on my patreon page soon:
